Paul Clifton

General Manager— Product Development Group

With over thirty years of computer experience, Paul Clifton began as a computer technician for the US Army during the Viet Nam conflict. Paul was selected to return to the Army's Electronics Headquarters to instruct the multi-service computer technology course, including encrypted voice and data transmission via satellite link. During this stint, he received an A.S. in Computer Science and was awarded an Army Commendation Award for his liaison with the Pentagon in developing the first fully automated ammunition inventory system.

His business experience spans sixteen years of enterprise MIS software development in an IBM mainframe environment, including design and implementation of a national on-line merchandise processing system for Federated Department Stores twelve retail chains. As an entrepreneur, Paul co-founded The Xcaliber Group, Inc., a leading edge, mainframe based laser print-on-demand service organization. As the Director of Eastern U.S. Sales for WTW Information Technology Consulting Services, he was responsible for the management of a sales staff of 11 and over 90 consultants.

Recently, Paul has focused his efforts on PC based platforms, including seven years of design, manufacture and technical support of Digital Video Surveillance systems for nationally recognized organizations.
